

# Dashboard Inputs

Saturday, September 4, 2021 8:25 PM

Data input needed for the hexbin map:

pixel_group_id	centroid_lat	centroid_lon	composite_VI (0-10)	var_1	var_2	var_3
1	45.53	64.73	7	3.4221	2.1411	5.0121
2	44.22	64.2	5	1.8721	6.2353	1.0245
3	47.12	63.25	2	8.3215	9.2134	5.322
..	..	..	..	..	..	..
..	..	..	..	..	..	..
..	..	..	..	..	..	..
64	49.51	61.12	10	34.1	354.2	22.4

"Composite\_VI" is the average VI values predicted by our machine learning model for sometime in the future (eg. 6 months into the next plant life cycle).
